STOCKS CONTINUE WABBLY COURSE

Oils Undergo a Rally;
Prices Are Highest
at Last Hour

NEW YORK. June 28.—The stock market today followed its uncertain and jagged course. Early gains of 1 to 2 points later were subjected to considerable revision.

Oil rallied sharply on reports

that the Mexican government would

not implement its program of foreign

debtors and foreign exchange

related to settlement of the Bell-

Ramon strike.

Petroleum attained highest levels in the final hour on a demand for

parts and equipments which extends

to oils, motors and parts. Cris-
tian and U. S. steels finished at plus

stantial gains as did Mexican Pet-
roleum. Reading and Southern Pet-
roleum gains amounted to \$25,000.

The rate on call money rose from

3 1/2 per cent to 3 1/4 after the ob-
servable revision, both to be ex-
plained by the government's proposed

reducing program but industrials

ended with irregularity in Liberty in-
surance. Mexicans were strongest of

the foreign group. Total sales per
share, \$19,500,000.
